

Hi-Lo MONO LCD/LED ELECTRIC SCREEN MOUNT

Quality - An elegant yet sturdy single column electric trolley mount lift with 500mm smooth electric lifting capacity. Equally suited to the boardroom as the classroom, it is constructed in the UK with precision engineering, built to last.

Universal - Heavy duty electric lifting capacity with reinforced welded brackets easily mounts displays up to 70" and 100kg. Suits VESA patterns 200-800mm wide x 200-440mm high. Optional brackets for 800mm x 600mm, code 8975.

Mobile or Free Standing - The Hi-Lo Mono is able to be positioned tight to the wall. The free standing mount incorporates fixing holes in each corner of the base to allow permanent fixing to the floor if desired. Cover caps provided if the movable free standing solution is required.

Power Up - A neat integrated 4 way power bar for the screen and peripherals is provided as standard, complete with cover panel, leaving just one cable to the mains socket via a switched fused inlet for additional safety. Cables are tidied away within the mount head for a professional and safe installation. Includes a 3 metre hi-vis mains input cable for convenience and safety. Country specific mains cables available.

Delivered ready assembled - all that's required is to attach the hanger to the screen and the screen to the mount.
